Suicidal Thoughts and Actions and Antidepressant Drugs

Antidepressants may increase suicidal thoughts or actions in some children, teens or young adults within the first few months of treatment or when the dose is changed. Depression or other serious mental illnesses are the most important causes of suicidal thoughts or actions. People who have (or have a family history of) bipolar illness, or suicidal thoughts or actions may have a particularly high risk. Pay close attention to any changes, especially sudden changes in mood, behavior, thoughts or feelings. Call

ANTIDEPRESSANTS = SEXUAL DYSFUNCTION

NO SEX PLEASE!

Gillian McFarlane's incredibly emotional story about how she gave daughter Sara away when she became an alcoholic appears in the **DAILY MAIL**...

Gillian and Sara

It is the reunion with her daughter Sara that mum Gillian never dreamed would happen.

Six years ago after becoming an alcoholic, former air hostess Gillian McFarlane, 48, was forced to give daughter Sara up to live with her dad and his new wife in Italy. Sara was just five and giving her up broke Gillian's heart. She began drinking even more and ended up in hospital with Cirrhosis of the liver. Doctors warned she could die – but then she thought of her daughter and the thought of abandoning her again – by dying – gave her the strength to get

better.

Subject: antidepressant documentary

To: "pcg@cochrane.dk" <pcg@cochrane.dk>, David Healy <david.healy54@gmail.com>

Hi David and Peter,

I have some disturbing news about the antidepressant documentary.

The ABC has confirmed that they will not run the documentary on their network. They own all the copyright to the material so it can not be taken elsewhere.

I realise all the hours and effort you both put into making this story happen and I can only apologise over and over for wasting your time. I too, am extremely devastated that 2 years of background research and all that effort this year to film and write it has gone to waste.

I am happy to discuss it further with you by phone, let me know if you would like me to call.

Best wishes

Maryanne

Copy of my email to Denise including my request to A&E :

Denise can you write to all those who kindly participate in the episode Prescription for Murder.

As you know, I do not agree with the conclusion of the broadcaster and this show until one week prior broadcasting schedule date has received all necessary approval from A&E staff. It seems they change their mind at the last minute. I need the postal address to send at least a DVD of the show to all these guests that they can use for private viewing on a non commercial basis. Please Denise express my regrets.

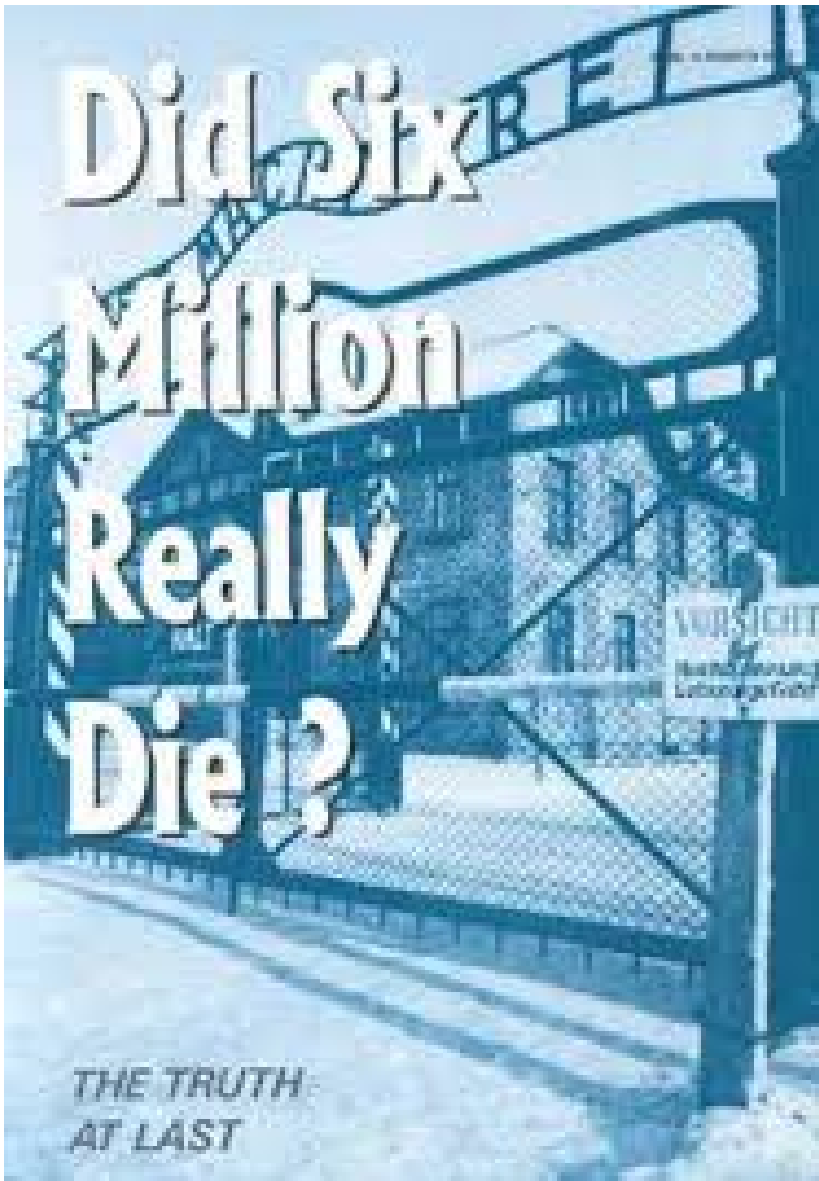

At the time I was hoping that this episode would have help to improve Justice in America but unfortunately if the media do not play his legitimate role this day of a better America is very far away.

Contrary to the actual belief of A&E, our research and notes we could not put in a short popular documentary all the opinions expressed by participants seems to us pin point in the right direction.
